South Hardwick Academy THE Fail Term of this Institution will commence Wednesday, Sept. 4, and continue eleven weeks. BOARD OF TEACHERS.

BOAR S OF TEACHERS.

A. J. SANBORN, A. B., Principal.

Alss. M. J. SANBORN, Teacher of French.

GEO. H. BLAKE, Assistant.

Jose E. J. NORKIS, Teacher of Primary Department.

WILBUR F. WHIPPLE. Teacher of Music.

ABEL T. WAY, Teacher of Primanship.

The above Teachers have been carefully selected and we feel assured that no school in this part of the State offers more ample facilities for education than this. The building is spantous, nearly farnished, and well suited for the comfort of the student. The school is situated in the pleasant and thriving village of South Hardwick, easy of access, and surrounded by an intelligent community.

Particular attention will be given to those who wish to pursue a classical Course, preparatory to entering College. It will be the aim of the teacher to teach, not isolated facis, but principles and their relations to each ether; to teach practical knowledge, that the student may not go out into life like the hooded messenger of the Savan, but with his knowledge classified and arranged, so that he may know how, when and where it is to be cathed into use.

The best manner of teaching the different branches will.

The best manner of teaching the different branches will be discussed in a class formed for the benefit of those intending to teach.

The Plano, Harmony and Thorough Bass will be thoroughly taught, and vocal music will be a daily exercise in school.

school.

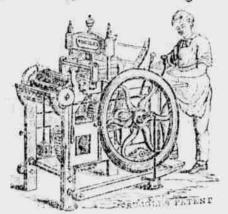

The debating society will give a good opportunity for speaking and writing, both to Ladies and Gentlemen. Lectures will be given by the Principal upon the different branches pursued during the term.

Boardfrom \$1,50 to \$2,00, including room, washing, fuel. &c.

Rooms for self-boarders one shilling per, week
For tuition see small handbills
For Rooms or Board apply to the Principal.
Fouth Hardwick, July 29, 1861. E. B. GUYER, Sec.

An aperient and Stomathic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities both in Europe and the United States, and prescribed in their practice.

in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions, indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried, the second department of the follows.

Innoxious in all maladies in which it has been tried, it has proved absolutely carative in each of the following complaints viz:

In Delility, Nervous Affections Emeriation, Dyspepsia, Consumption, Diarrhosa, Dysentary, Incipient Consumption, Scrofelous Tuberculosis, Sait Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic headrehes, Ebcumatism, Intermittent Pevers, Pimples on the Face &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an

vous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridded as to become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if Just returned from protracted travel in a distant land.—Some very signal instances of this kind are attested of female Sufferers, emiciated victims of apparent maturials. Sanguincous exhibition, critical changes, and that emplication of nervous and dyspeptic averston to air and exercise for which the invalid has no name.

name. name.

In Nervous affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorous y to be, without being exciting and overtheating; and gently, regularly apprient even in the most obstitude cases of costweres without over being a gastric purgative, or indicating a disagreeable sensation. able sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a terme dy for Piles, upon which it also appears to exert a specific letten, by dispersing the local tendency which forms them.

In Dyspensia, incumerable as are its cruses, a single box of these Charybeate Phils has often sufficed for the most habitual coses, increasing the habitual Costiveness. In unchecked Diarrheas, even when advanced to Dysentary, confirmed, emeriating, and apparently un-tignant, the effects have been equally decisive and acton ishure. ishing.
In the local pains, loss or flesh and strength, detil

In the local pains, loss of flesh and strength, detail taking cough, and remitly bettle, which generally indicate the piece Consumption, a remedy has all ayed the starm of friends and physicians, a several very graditying and interesting instances.

In Scroftnons Tubercanos 8, this medicated from har had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of Familes cannot by the considerity invited to this remedy and restorative, in the cases peculiarly affecting them.

in Rheumatism, both chrenic and inflammatory-to the latter, however, those decidedly—it has been invariably well reported, both as afteriating pain and reducing the swellings and entiress of the joints and In Intermittant Fewers it must necessarily be a great

ten dy and encretic and its progress in the new set thements of the West, will probably be one of authorise news and ascially se.
